C4C PJJ is a fundamental principle based curriculum focused on LEO outcomes. The curriculum is written by Active LEOs and trained in a systematic manner that encourages learning and retention. The program covers de-escalation, empty hand tactics, weapon based training, team tactics, communication, use of force, instructor development, and other topics. A heavy emphasis is placed on control, grappling, defending against attacks, and team tactics. The C4C PJJ program is designed to allow ongoing training throughout an officer's career and not be a "one and done" class. This comprehensive program is specifically designed to teach Law Enforcement Officers proven methods to help keep Officers and the Communities they serve safer.
